Foulsham House is a fine, large house of the 1790s. It stands by the River Byer, in twenty-five hectares(公顷) of the best farmland in the southwest.

The house was built by Smithson, and the story goes back to George, the son of King of Whales, who fell in love with the beautiful Lady Kitty, at one of the first Foulsham's wild woods (野外) parties. Many years ago many great men rode on the hills about Foulsham House, and many fine girls took tea in the Green Room.

The house has eight bedrooms, three bathrooms(浴室), two living-rooms, and a dining-room with a real Adam fireplace. Its library has a good view over the park and the river. All rooms are light and airy, with good, high windows, and wood floors.

At the back of the house there is room for four cars. The third Foulsham once kept there. In many other ways, this house of the 1790s meets the needs of the 1990s.

#### 四、阅读理解题

阅读下面短文,然后根据短文的内容从每小题的四个选择项中选出最佳的一项,并把它前面的大写字母填入右边的横线上。

##### A

Packaging is an important form of advertising. A package can sometimes motivate someone to buy a product. For example, a small child may ask for a breakfast food that comes in a box with a picture of a TV character. The child is more interested in the picture than in breakfast food. Pictures for children to color or cut out, games printed on a package, or small gifts inside a box also motivate many children to buy products or to ask their parents for them.

Some packages suggest that a buyer will get something for nothing. Food products sold in reusable containers are examples of this. Although a similar product in a plain container might cost less, people often prefer to buy the product in a reusable glass or dish, because they believe the container is free. However, the cost of the container is added to the cost of the product.

The size of a package also motivates a buyer. Maybe the package has “Economy Size” or “Family Size” printed on it. This suggests that the large size has the most product for least money. But that is not always true. To find out, a buyer has to know how the product is sold and the price of the basic unit.

The information on the package should provide some answers. But the important thing for any buyer to remember is that a package is often an advertisement. The words and the pictures do not tell the whole story. Only the products inside can do that.

( )36.The word “motivate” most probably means \_\_\_\_\_.

- A.making one deep in thought

- B.supplying a thought or feeling that makes one act

Stage plays, at first, seem a lot like films. Both use actors and dialogue and scenery. But if you try to make a film by setting up a camera in front of the stage, you will find it won't work. A film made in this way will leave the audience cold. And even worse you'll be wasting a powerful tool—the camera. A stage is actually a box. One side of the box has been removed so the audience can see what's going on inside. The actors remain at a fixed audience. In the film, however, the camera can bring the audience up close and fix their attention on small but important things; a frightened look, a whisper, a trembling of hands. The camera offers the film maker freedom allowing him to move easily across barriers(界限) of time and space. He can show his action in real cities and on real farms. He can also use the camera to change the scene dozens of times in one film. No expert of the stage can do this.

( )44.The main idea of the text is that \_\_\_\_\_.

- A.stage plays and films are two different kinds of art
- B.it is always disappointing to turn play into films
- C.films have certain advantages(长处) over stage plays

- A.Fewer and fewer people will go to the theatre.

- B.The audience cannot see what is going on on the stage.
- C.The scene cannot be changed from time to time.
- D.The powerful camera cannot be made good use of.

( )46.Which of the following can show that the camera is a powerful tool?

- A.It can move easily.
- B.It can make small things look larger.
- C.It can show things in the future.
- D.It can give us a scene of realism.

( )47.In what way are plays different from film?

- A.Films often use real scenery while plays don't.
- B.Films can show the past while plays can't.
- C.Films change scenes while plays don't.

A student is learning to speak British English. He wonders(想知道): Can I communicate with Americans? Can they understand me? Learners of English often ask: What are the differences between British and American English? How important are these differences?

Certainly, there are some differences between British and American English. There are a few differences in grammar. For example, speakers of British English say “in hospital” and “Have you a pen?”, Americans say “in the hospital” and “Do you have a pen?” Pronunciation is sometimes different. Americans usually sound theirs in words like “bird” and “hurt”. Speakers of British English do not sound theirs in these words. There are differences between British and American English in spelling and vocabulary. For example, “colour” and “honour” are British, “color” and “honor” are American.

These differences in grammar, pronunciation, spelling and vocabulary are not important, however. For the most part, British and American English are the same language.

Some people think they have an answer to the problems of automobile(汽车) crowding and pollution in large cities. Their answer is the bicycle, or “bike”.

In a great many cities, hundreds of people ride bicycles to work every day. In New York City, some bike riders have even formed a group called Bike for a Better City. They think that if more people rode bicycles to work there would be fewer automobiles in the downtown section of the city and therefore less dirty air from car engines.

For several years this group has been trying to get the city government to help bicycle riders. For example, they want the city to paint(为……涂以颜色) special lanes(通道)—for bicycles only—on some of the main streets, because when bicycle riders must use the same lanes as cars, there may be accidents. Bike for a Better City feels that if there were special lanes, more people would use bikes.

But no bicycle lanes have been painted yet. Not everyone thinks this is a good idea. Taxi drivers don't like the idea—they say it will slow traffic. Some store owners on the main streets don't like the idea—they say that if there is less traffic, they will have less business. And most people live too far from downtown to travel by bike.

The city government has not yet decided what to do. It wants to keep everyone happy. On weekends, Central Park—the largest open space in New York—is closed to cars, and the roads may be used by bicycles only. But Bike for a Better City says that this is not enough and keeps fighting to get bicycle lanes downtown. Until that happens, the safest place to bicycle may be in the park.

Getting plenty of exercises is very important. I enjoy swimming very much. Last summer, I went to the beach(海滩) every day. I plan to go there this summer too, but I may not be able to. I have a new job. Sometimes I have to work until late at night. Although I now work more hours, I receive more money. I didn't receive much pay on my old job. I like my new job, but if I had known I wouldn't have much free time, I wouldn't have taken it. I prefer swimming to spending money.

I have heard that riding a bike is a good exercise. Maybe I will be able to save enough money to buy a bike. My neighbor, Mrs. Wilson, has a bike that I could borrow from her, but I'd like to have my own bike. If I use hers, I will worry about damaging(弄坏) it. Since I make more money now, I think that I can afford to buy my own.

Getting a bike is really a good idea, because while I am riding to and from work, I will be getting exercises at the same time. It's easier to get to the beach by bike, too. I might be able to go swimming every day after all. This new job is great! I'm very excited. This will be a summer full of exercise.

Some farmers in California are having a hard time picking their crops. There are not enough workers to help them with the harvest.

One farmer used to grow peaches (桃子), but will soon grow almonds (杏仁) instead. Peaches require more labor to harvest. They are easy to be damaged and need careful hand picking. He is now removing his peach trees. Then he will plant almond trees in their places. Almonds are harvested differently. It does not take as many workers to pick them because a machine shakes the almond trees. The nuts fall on the ground and then are gathered up. The farmer does not have to hire many workers.

Some farmers think there are two reasons why they can't find enough farm workers. One reason is that there are a lot of well-paid construction jobs in the area. Many people are taking these jobs instead of picking fruit. The other reason is that it has become more difficult for workers to come from Mexico into California. Fewer workers are allowed to get into the country to work on the fruit farms. To settle the problem, farmers hope the government might allow these workers to work as guests. That would help workers provide for their family and help farmers harvest their crops. When the harvest season is over they'll go back home. Farmers say that unless things change, more fruits will come from other countries. This is because labor is cheaper in those countries than in the United States.

36. What problem do some farmers have?
- A. They have no workers to remove fruit trees.
  - B. There is little land for growing fruit.
  - C. Their crops were badly damaged last year.
  - D. It's difficult to harvest their crops.
37. Why does the peach farmer start to plant almonds?
- A. There is a greater demand for almonds.
  - B. Growing almonds takes much less land.
  - C. A machine can help get almonds off the trees.
  - D. Almonds will fall on the ground when ripe.
38. Why can't some farmers find enough workers to pick fruit?
- A. They grow too many peach trees.
  - B. People prefer well-paid construction jobs.
  - C. Few people want to work in California.
  - D. They don't want to hire workers from Mexico.
39. What will happen if the situation does not improve?
- A. The government will hire workers to help with the harvest.
  - B. More people will move to California from Mexico.
  - C. Other countries will provide cheaper labor for US farmers.
  - D. More fruits will be bought from other countries.

Scientists have long tried to be able to know more about floods. So far, the best that scientists can do is to recognize the conditions for flooding.

Although deep snow alone seldom causes floods, when it occurs together with heavy rain and sudden warmer weather, it can lead to serious flooding. If there is a fast snow melt (融化) on top of frozen or very wet ground, flooding is likely to occur. Melting snow also causes high water levels in rivers. Whenever rivers are already at their highest possible levels, heavy rains will result in the rivers' flooding the nearby land.

Rivers covered in ice can also lead to flooding. When ice begins to melt, it breaks into large pieces. These pieces of ice move and float down the river. They can block the river, causing the water to rise and flood the land up the river. If the ice dam (坝) breaks suddenly, the large quantity of water held behind it can flood the areas down the river too.

Broken ice dams are not the only problem that can cause flooding. When a large human-made dam breaks or fails to hold the water collected behind it, it will also cause serious damage.

Although scientists cannot always know when floods will occur, they do know a great deal about when floods are likely, or probably, going to occur.

40. What have scientists achieved in dealing with floods?
- A. They have prevented many rivers from flooding.
  - B. They have reduced the damage caused by floods.
  - C. They have learned much about conditions for flooding.
  - D. They have found most of the ice dams on the river.

41. When will deep snow lead to floods?
- A.The snow suddenly gets frozen.
  - B.The top of the ground becomes wet.
  - C.It rains hard with a big rise in temperature.
  - D.The snow melts gradually into a river.

42. What happens when ice dams break?
- A.They may quickly block the river.
  - B.The ice covering the river may melt fast.
  - C.A larger ice dam may soon be formed.
  - D.The areas down the river may be flooded.

It was Sharing Day! The teacher had asked the students to bring something interesting to class. Jimmy found the little box he and Dad had made. Inside was a piece of rock, a sand dollar and a shark (鲨鱼) tooth. Nobody could have anything as interesting as these!

In class, Jimmy waited anxiously, hoping to be called on first by the teacher. But Kara was first. She held up a sand dollar. Jimmy's eyes grew big.

"I found this on the beach," Kara said. "It's interesting. The little holes that make the sand dollar look like a flower are breathing holes. See all the needles? They help the sand dollar move and dig into the sand."

Jimmy was a little uneasy. Oh, well, he still had his rock and shark tooth.

Then Mark stood up. "This is my favorite rock, called pumice (浮石)." Then Mark dropped the rock into a glass of water. "Look! Pumice is the only rock that floats!"

Jimmy put up his hand and waved, but the teacher called on Justin instead.

"I found this shark tooth in Hawaii last Christmas," Justin said.

The class was excited, but Jimmy lowered his head.

"Sharks have rows of teeth. Every time a shark loses a tooth, another one takes its place." Justin passed the tooth around.

Jimmy heard the teacher call him. He stood on one foot and then the other. "Well, ah, see...my treasure box is interesting! It was just a piece of wood until Dad and I cut it into pieces and finally made a box out of it. It smells good, reminding us of camping."

"What's inside?" asked Lisa.

Nineteen-year-old Melissa Goza couldn't figure out why she failed to get a bank card time and time again. It only became clear when she was unsuccessful while looking for a new job in a Target store: Three different people are using her Social Security number (社会保障号).

Target is one of the companies using credit (信用) reports when hiring new workers. At least one credit report didn't favor Goza in getting the job. A very low credit rate (评价) was under Goza's Social Security number. Target, as required by law, told Goza why the company couldn't offer her the job.

Sacramento lawyer Jennifer Shaw, a specialist in workplace law, says credit reports are just one more way employers use to find dishonest job seekers. "I think we need to know that, right now, there's more information out there. And that means, there's more information that can be used against us," said Shaw.

Goza's dark cloud may, however, *have a silver lining*. Target told her she'd be considered again for the job if she could get a letter from the Social Security Department proving that she's the right owner of the Social Security number.

Now that Goza knows she's suffered from other people's wrongdoings, she will order copies of her credit reports to see what she can do to put things right.

47. What do we know about Goza?

- A. She got the job from Target.      B. She has had three bad friends.  
C. She doesn't have a bank card yet.      D. She was not honest with Target.

48. What did Target first do when refusing to offer Goza the job?

- A. They asked her for credit reports.  
B. They told her why she couldn't get the job.  
C. They found out her wrongdoings.  
D. They reported it to the Social Security Department.

49. What does "a silver lining" in Paragraph 4 probably mean?

- A. A hopeful future.      B. A bank report.  
C. An official letter.      D. A Social Security number.

50. What does Goza have to do next?

- A. Clear up her wrong credit reports.      B. Get a new Social Security number.  
C. Find a job in another company.      D. Apply for a new bank card.

Dear Tom,

You asked me why I like living in New Mexico. I like it 21 it is so beautiful. We have mountains, mesas(平顶山), rivers, and forests. Mesa is the Spanish 22 for a broad, flat-topped mountain. For 12 years. I have 23 across the state several times a month, and I still find new places that take my breath away.

24 else do I like about living in New Mexico? I like the sunshine. We have over 300 25 days a year. with deep blue skies. Because we are 7,000 feet above 26 level and the weather is very dry, the air is very 27 and the nights here are much colder than the days.

The many days of sunshine are a very good thing for our state. Do you know that New Mexico 28 more than 3,200 hours of sunlight every year? With that much sunlight, we are one of the sunniest states in the United States. Some people 29 that if we could use the energy from all of the sunlight here, we could 30 more than enough power for the whole United States!

The weather in New Mexico is good for 31 energy out of sunlight, but sometimes the lack of rain is a 32 for people living here. Most of the state is desert, and there isn't enough water 33 drinking, growing food, and other uses. Farming is very difficult here because of the water

So,as with all places,there are things that are wonderful and yet others that are 35 about living in New Mexico.How about you? Do you like living where you are?

Yours,

Anna

“Most children carry their phone in their back pocket, and when someone reaches for it, in my mind they're reaching for a gun,” said Della Fave, a spokesman(发言人) for New Jersey police.

Della Fave shared a photo of the iPhone case(外壳) that he found on a social website(网页). In the

photo, a model stands with her phone in her back pocket, and the case looks like a gun.

Della Fave said, “If a child draws the phone with the gun-like case before policemen, the first thing they're going to see as it's coming up is a gun. This doesn't seem like a good idea at all to a policeman.”

The phone case is sold online by various sellers at prices from about \$ 5 to \$ 49 and comes in several different colors. “The case is popular. That's why we sell it. If you have the case, you can play games of shooting at parties,” said the Trend Shop. “Don't worry. You can't actually shoot anyone!”

A policeman gave a few words of advice, “I would NOT suggest buying this kind of phone case, which was designed to look like a gun.”

A zoo is a place where animals are kept and displayed(展示)to the public. Some people argue that a zoo need not be a place for animal display alone ,and may also include raising animal species (物种) which are becoming less and less.

Animal rights groups are divided on the matter of keeping animals in zoos—with some in favor of this practice ,and others calling for a ban(禁令).The most important reason that those in favor of this practice put forward is that it offers protection for animals. For those species which are fighting for their life ,zoos are the best places where they get plenty of food ,water and medical care when needed.

Those who are against the practice argue that the idea of “displaying animals to the public” is itself a strong enough reason for banning. They further add that the practice of using animals for our own selfish gains cannot be a good reason under the excuse of protection. The treatment of animals in these zoos is yet another big worry ,with quite a few reports about ill-treatment(虐待) of animals once in a while.

It’s very difficult to come up with a clear idea on whether it is right to keep animals in zoos or not. It is true that the animals are protected in these places as they don’t get into **conflict** with humans. But ,at the same time ,one has to admit that keeping them in zoos equals a disrespect for nature. These animals are born to live in the wild ,and we should accept this fact.

Did your child's brain become smaller last summer? Probably not, according to a study by Dr.Harris Cooper, professor at the University of Missouri-Columbia. The study found that when students return to school after a long summer vacation. They've lost one to three months worth of learning.

This is more harmful for math than it is for reading.“All students lose math skills.” says Cooper. It may be because kids(小孩) have more chances to practice reading than math. Middle-class children actually learn more in reading than lower-income students over the summer. Cooper feels that this results from the variety of activities that many middle-class kids take part in over the summer, such as camping(野营) and trips.

“Parents can help their kids keep educational skills.” says Cooper. He suggests the following tips to have a learning-filled summer.

- 1.Keep lots of books around and make regular trips to the library. Most libraries offer special summer events for kids
- 2.Think about what your kids may be learning next year when you plan the family vacation. Talk with teachers to find out what they'll be covering in class.
- 3.Keep math in mind. Since kids lose more math skills than anything else over the summer. try to do some special planning to find math-related activities.
- 4.Consider summer school. Struggling kids can get a lot of different kinds of help from summer school programs. Summer school can also enrich and quicken learning in areas where kids show a special interest.

Remember to keep it fun! You don't want to make your kids unhappy with learning during the summer break.

- ( )47.What did Dr.Harris Cooper find in his study?  
A.Kids love reading more after the summer.  
B.Kids show a special interest in math after the summer.  
C.Kids' math skills become weaker after the summer.  
D.Kids have a lot of fun in the summer.

阅读下列短文，然后根据短文的内容从每小题的四个选择项中选出最佳的一项。

## A

Cesar was born in Arizona in 1927. His grandparents had come to the United States from Mexico years before. Cesar and his family lived on their farm. In the 1930s, there was very little rain in Arizona. The land dried up and farmers couldn't grow crops. Cesar's family had to move. They went west to California.

California had a lot of farmland. Cesar's family got jobs as *migrant* farm workers. That meant they moved from farm to farm to pick crops. It was hard work, and the pay was very low. Cesar worked in the fields to help his family. He also went to school. He liked to learn, but he didn't like going to school. Some children made fun of him because he did not speak English well.

When Cesar was 17, he joined the navy. He was at sea for two years. After he returned home, he married his true love, Helen. They later had eight children. Cesar

returned to working in the fields. But he was angry about how hard life was for the farm workers. The landowners (土地拥有者) made all the money. They didn't treat the workers well. Cesar had always been quiet and shy. But now he decided it was time to speak up. He was going to work for farm workers' rights. He began by talking to farm workers. He helped them vote (投票). He did not tell his boss that he had an important test early the next morning.

On Thursday morning David slept through the alarm (闹钟). But, luckily, he was woken up by the telephone half an hour later. He arrived at the exam as the test papers were being handed out. However, he had missed the professor's instruction on how to

In fact, at the very beginning David made a poor decision. He didn't tell his boss that he needed a good sleep on the night before his big test. A hot topic is popular among teenagers recent years—it is constellation. Many young people are very interested in talking about it. They are proud of showing others their clothes with constellation. It seems that it's their style. They believe that life, temper, career or even loves is connected with some stars. Fashionable life is characterized by their favorite ways.

However, although these students enjoy this fad, it is better to clear our minds. After all, it is somewhat superstition that infers your future by someone according to certain star.

As far as I am concerned, I don't think that it is a bad thing. It brings us joy, beauty and luck. If you like, enjoy it!

Today pollution has become a serious international problem. Our air, seas, rivers and land have been polluted by waste or poisonous things. Pollution does great harm not only to human beings but also to animals and plants. We can't have fresh air because many factories have poisonous smoke sent into the air and the cars give off waste gasses. We can't have clean water because factories have pumped their waste water into rivers, lakes and seas. It is said that strange diseases have appeared in some places because of pollution. I think the government can do something to stop pollution. For instance, it can reduce the production of cars and encourage to produce environment-friendly cars. The waste and waste water from factories must be treated properly before they are sent out. In this way we can improve our environment and live a healthier and happier life.

It is a Chinese traditional custom to set off the fireworks to celebrate the Spring Festival. Setting off fireworks can create an atmosphere of happiness and joy. One coin has two sides. However, setting off fireworks can also bring about some ill results. Big fires are easily caused by the fireworks. Many people get injured when they set off fireworks, for example, some children have their hands blown off and become blind because of fireworks. What's worse, it leads to bad noise and air pollution. Some measures should be taken to stop such a practice by the government. It is high time we forbade setting off fireworks.
